

Advanced Solutions, For all Your Needs

Elimetal Inc. specializes in manufacturing high precision components for the Aerospace industry as well as other hi-tech business sectors. We are equipped with the latest CNC multi-axis milling and turning machining centers, as well as CNC EDM wire cutting, sinking and drilling machines.

Elimetal Inc. is a one-stop-shop by providing full turnkey solutions for your manufacturing needs including:

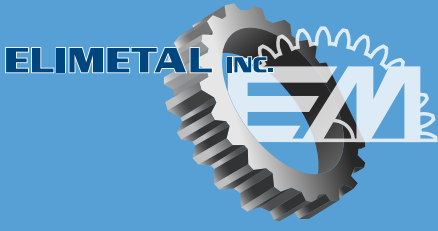

- Complete multi-axis machining
- High tolerance component manufacturing
- CNC turning with "C" axis milling
- CNC milling (5-axis)
- EDM wire cutting
- EDM sinking
- EDM drilling
- CMM - inspection & digitizing
- Complete conventional machining
- Advanced engineering & CAD/CAM programming
- Cylindrical internal & external grinding
- Honing
- Match grinding
- Lapping
- Brazing
- Pressure and leakage testing
- Precision assembly work

An ISO 9001-2000 Certified Company

Mission Statement

Extensive *experience*

Leading edge of technology in aerospace and hi-tech sectors

Innovative and dynamic company empowered by *imagination*

Major EDM house with complete CNC *machining capabilities*

Efficient and complete quality assurance

Total commitment to providing *cost effective* parts

Advanced *solutions*, for all your needs

Looking to achieve total *customer satisfaction*
